Company Overview:

In addition to all these approvals, our strength lies in transporting your invaluable consignments to and from any corner of the globe in the most economical and efficient manner. With customer satisfaction and safety as the basic philosophy of our company, we strive constantly to improve our systems to meet all YOUR Logistics needs. The rare combination of talent of our young and dynamic team with experienced professionals gives you the edge required to SPEED ahead of competition by cutting logistics costs & delivering on time, every time.

Projects Handled by Transpeed Logistics Pvt Ltd:

1. L&T Construction (Horizontal Machining Center Along With Standard Accessories)
2. Gandour India Ltd (40’ Flat Rack Chocolate Mixing Plant)
3. Greenko (Solar Panel)
4. Shanti Boilers (20’ Flat Rack)
5. Kumar Metals (ODC container division)

Customs Bonded Warehouse:

Bonded warehousing is a statutory facility for depositing imported goods in a warehouse pending payment of duty. The advantage of the scheme is that the imported goods can be cleared on payment of duty in installments, as and when required during the warehoused period, up to one year. Transpeed Logistics Pvt. Ltd. have acquired a license for Customs Bonded warehouse of 6000 sq. ft. built-up area located at Doddaballapur, Bangalore. It is equidistant from Kempegowda International Airport as well as from ICD, Whitefield.
